

**GRAHAM EVANS**

---

I found this path when training for Birmingham marathon in 2017. It was a great way to link the Birmingham Wolverhampton Canal, Edgbaston Reservoir and the Worcester and Birmingham Canal without too much road running. Until I went to photograph it in 2023, I never really thought about it again. As I came through the tunnel under the Hagley Road, a woman approached me and asked:

*Have you seen them, the spirits?*

I hadn't, but it did make me wonder what was happening in there.
