

FENELLA BERRY

Brackenbed Lane

Infamously steep
Halifax's K2?!
"I got t' top o' Brackenbed
and then I had to be picked up."
I think about what our friend said
about his bike adventure
every time I drive up there, and smile.

The fish and chips at the top are
award winning. Delicious memories of
cricket evenings rounded off
with Brackenbed's finest delicacy
when we were starving.
Those were great summers.
Nothing got done at home, mind.
